

Peanut Butter - Chocolate KETO BITES

IdaPro® Micellar Casein delivers enhanced texture, consistency, emulsification, and extended shelf-life.

A keto-style diet has been proven effective for offering health benefits such as weight loss and preventing disease. While a keto diet eschews carbs including sugars, sweet and tasty recipes can also be keto friendly such as these micellar casein protein bites, which are ideal for consumers on the go.

IdaPro® Micellar Casein has a clean, light, milky flavor and aroma without the non-dairy flavors associated with caseinates. It has superior functional attributes like high solubility, emulsifying properties, quick dispersion and hydration. The heat stability of Micellar Casein prolongs shelf life and offers flexibility of packaging processes. Whether the need is muscle growth, increased satiety and appetite suppression, carrying increased calcium and phosphorus into the blood stream, or a combination, IdaPro® Micellar Casein provides a robust solution.

Nutrition Facts

Serving Size: Approx. 4 Bites (25g)
